Art Unit:

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-19,67, drawn to the brake pedal structure and locking mechanism, class 74/512.

Group II, claim(s) 20, drawn to the vehicle braking structure etc., class 188/265.

Group III, claim(s) 21-35 and 68-79, drawn to the brake pedal and locking structure classes 70/202+ and 192/219.6+.

Group IV, claim(s) 36-50, drawn to the vehicle brake system comprising a master cylinder and hydraulic accumulator class 188/358+.

Group V, claim(s) 51-55, drawn to the vehicle brake system comprising a master cylinder and specifics of the hydraulic accumulator, class 303/87+.

Group VI, claim(s) 56-59, drawn to the specifics of the hydraulic accumulator, class 138/30+.

Group VII, claim(s) 60-66, drawn to a vehicle brake system comprising a master cylinder and one way restrictor, class 303/113.1+.

Art Unit:

Group VIII, claim(s) 80-82, drawn to the master cylinder and hydraulic accumulator, class 60/550+.

Group IX, claim(s) 83-84, drawn to a brake caliper assembly, class 188/72.4.

2. The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The claims claim different aspects of a vehicle brake system in combination-subcombination form, specifically different structure in a pedal locking mechanism, master cylinder-hydraulic accumulator combination, and caliper assembly.

3. A telephone call was made to Tim Newholm on 9/1/03 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chris Schwartz whose telephone number is (703) 308-0576.
